Employment Promotion Program for International Students

Hokuriku-Shinshu Employment Promotion Program for International Students

Why don't you consider working and building your career in Japan?

Among those who took this program, all students who wish to work in Japan have received job offers from Japanese companies.

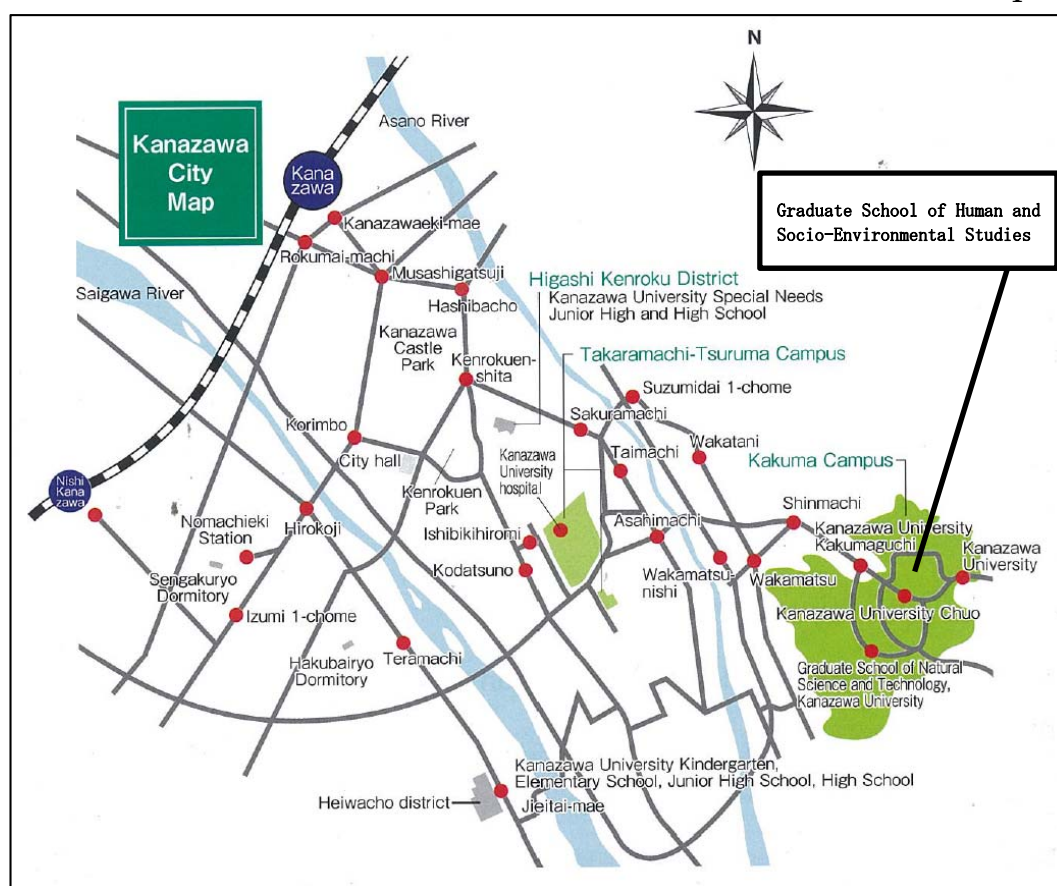

Kanazawa University offers the program, which is financially supported by the Ministry of Education, Culture, Sports, Science and Technology under "Employment Promotion Program for International Students" policy. This program is an appended education program with a focus on business Japanese, career education and internships in Japanese companies for international students who are interested in working in Japan. By taking this program, students can acquire not only advanced expertise or skills but also deep understanding of Japanese corporate culture and regional characteristics. Through this, we have developed highly-skilled professionals who are flexible and mentally strong and root themselves in the community. They lead Japanese economic development, especially energizing industries in the Hokuriku and Shinshu regions.

This program has been published in *The Financial Times*, one of the most prestigious British economic newspapers. An orientation meeting on the program is to be held in April and October at the time of enrollment periods. The exact dates will be announced after your enrollment. We look forward to your active participation.
